

Opportunity to Help Out cinéSarnia

We are looking to add a member to our team that would be comfortable with the technical aspects of running our films. The steps are not that complex, and there is plenty of help amongst the committee.

Do you have many of these qualities?

- Curious on how the film projection works at our theatre
- Enjoys working with computers
- Understands disk drives and transferring data
- Good problem solver
- Patience
- Enthusiasm
- Likes to be creative
- Experienced with promoting an organization through social media
- Some experience with website management
- Works regularly with Microsoft Word and Excel
- Graphic design
- Available most Sunday and Monday nights on various weeks
- And available for a few hours during the weekdays on various weeks
- Can attend meetings about 6 times a year in the evening for a couple hours
- A love of film

Please send us an email if this may interest you. Let us know why you would like to join us and some of your experiences from work or other organizations that could relate.

We'd love to have your input.

Thanks,

David Druiett
